## Lisa iRadio

*Listen to free internet radio on a professional audio player.*

Streamit's flagship business audio player, the Lisa LCD – Ultimate is highly versatile and suitable for many applications. Frequently used in the past as an internet radio receiver with varying levels of success due to the bad quality and availability of the audio streams. Looking for a way to guarantee qualitative internet radio for our customers we partnered with , the leading internet radio catalogue provider, and added support for their radio service to Claudio. The Lisa iRadio was born!

### Internet radio stream

Lisa iRadio turns your professional audio player into an internet radio receiver, giving you access to tens of thousands of radio stations from around the globe. The huge streams catalogue is curated to comprise only working streams supported by the Lisa. Employing the power of Claudio to propagate stream changes to your player's configuration makes broken links obsolete.

Use the powerful search functionality on Claudio to find you favorite stations at the preferred audio quality, create a favorites list, and assign to any player with a single click.
